

York Environment Partnership

Terms of reference

The terms of reference for the Environment Partnership are:

- i. To recognise environment issues requiring strategic attention and to make proposals for action;
- ii. To contribute towards development of the Strategy for York and City Action Plan in order to meet environmental aims;
- iii. To agree and monitor performance measures and annual targets that deliver environmental improvements in York;
- iv. To champion issues of environmental sustainability across all the themes of the Strategy for York and serve as the consultative body regarding sustainability for the Without Walls Partnership;
- v. To provide a forum for regular communication and feedback, information sharing and exchange, including best practice between environmental organisations at a strategic level.
